

Phelix Estinvil

Mechanical & Electrical Troubleshooting

Cape Cod, Massachusetts | estinvilp3@gmail.com

phelixestinvil.com

Seeking technician opportunities across Cape Cod, the South Shore, and Boston.

Professional Summary

Hands-on technician with professional marine diagnostics experience and nearly a decade in carpentry. Trained in carpentry at Cape Cod Regional Technical High School; developed mechanical troubleshooting skills through increasingly complex repairs to personal vehicles. Brings practical fault isolation, customer communication, and independent electronics and embedded-systems project experience.

Professional Experience

Marine Mechanic - Northside Marina

Started October 2024 · Sesuit Harbor, East Dennis, Massachusetts

- Diagnose no-start conditions and operating faults in gasoline and diesel marine engines; distinguish mechanical, electrical, and fuel-system causes.
- Interpret diagnostic trouble codes alongside symptoms, test results, and service information to guide repairs.
- Trace starting, charging, trim, and vessel-control faults with multimeters and diagnostic equipment; identify wiring and component failures.
- Identify water-contaminated fuel and troubleshoot fuel delivery affecting engine starting and operation.

Carpentry & Handyman Business

Nearly a decade of carpentry experience overall

- Started a handyman business with a friend after trade-school training; carried out residential carpentry, remodeling, installation, repairs, and finish work.
- Planned materials, estimates, and work schedules; adapted to existing conditions and unexpected installation problems.
- Communicated scope and progress with homeowners and reviewed completed work for quality.

Founder / DJ / Event Technician - DJ Phelix

Cape Cod & South Shore

- Set up and operate sound, microphones, lighting, and signal routing; troubleshoot cabling, power, wireless, and equipment during live events.
- Coordinate equipment logistics, timing, and technical needs with clients and venues.
- Maintain event information and promotional materials; supply gig photos and videos, creative direction, and copy ideas for DJ Phelix.

Independent Technical Work

Automotive Repair - Personal Vehicles

Self-directed maintenance and repairs, progressing to head gaskets, clutches, and other complex mechanical work. Used unfamiliar problems as learning opportunities; this experience helped support the move into professional marine service.

M5Stack DJ Smart Hub

Developing a distributed ESP32-S3 lighting-control system combining live audio analysis, scene logic, wireless transport, LVGL touchscreen interfaces, and DMX output.

ESP32 Smart-Light Retrofit

Developing a rechargeable RGB-fixture retrofit with internal DMX injection, wired fallback, ESP-NOW control, and fixture profiles.

PhelixSlicer

Working on an Orca-based slicer fork focused on Flashforge Adventurer 3 Pro support, Windows build tooling, and printer-profile validation.

Technical Capabilities

- **Diagnostics:** Mechanical and electrical fault isolation, engine diagnostic codes, multimeter testing, and service information.
- **Fabrication:** Carpentry, remodeling, layout, installation, repair, and 3D printing.
- **Independent electronics work:** ESP32 / ESP32-S3, LVGL, ESP-NOW, DMX512, and RS-485.
- **Project tools:** C/C++, Python, Git, PlatformIO, Arduino, and Windows build workflows.

Education

Cape Cod Regional Technical High School

Carpentry trade program · Harwich, Massachusetts
